

Crushing and Screening Plants

Allbest Creative Development Ltd. (ALLBEST)

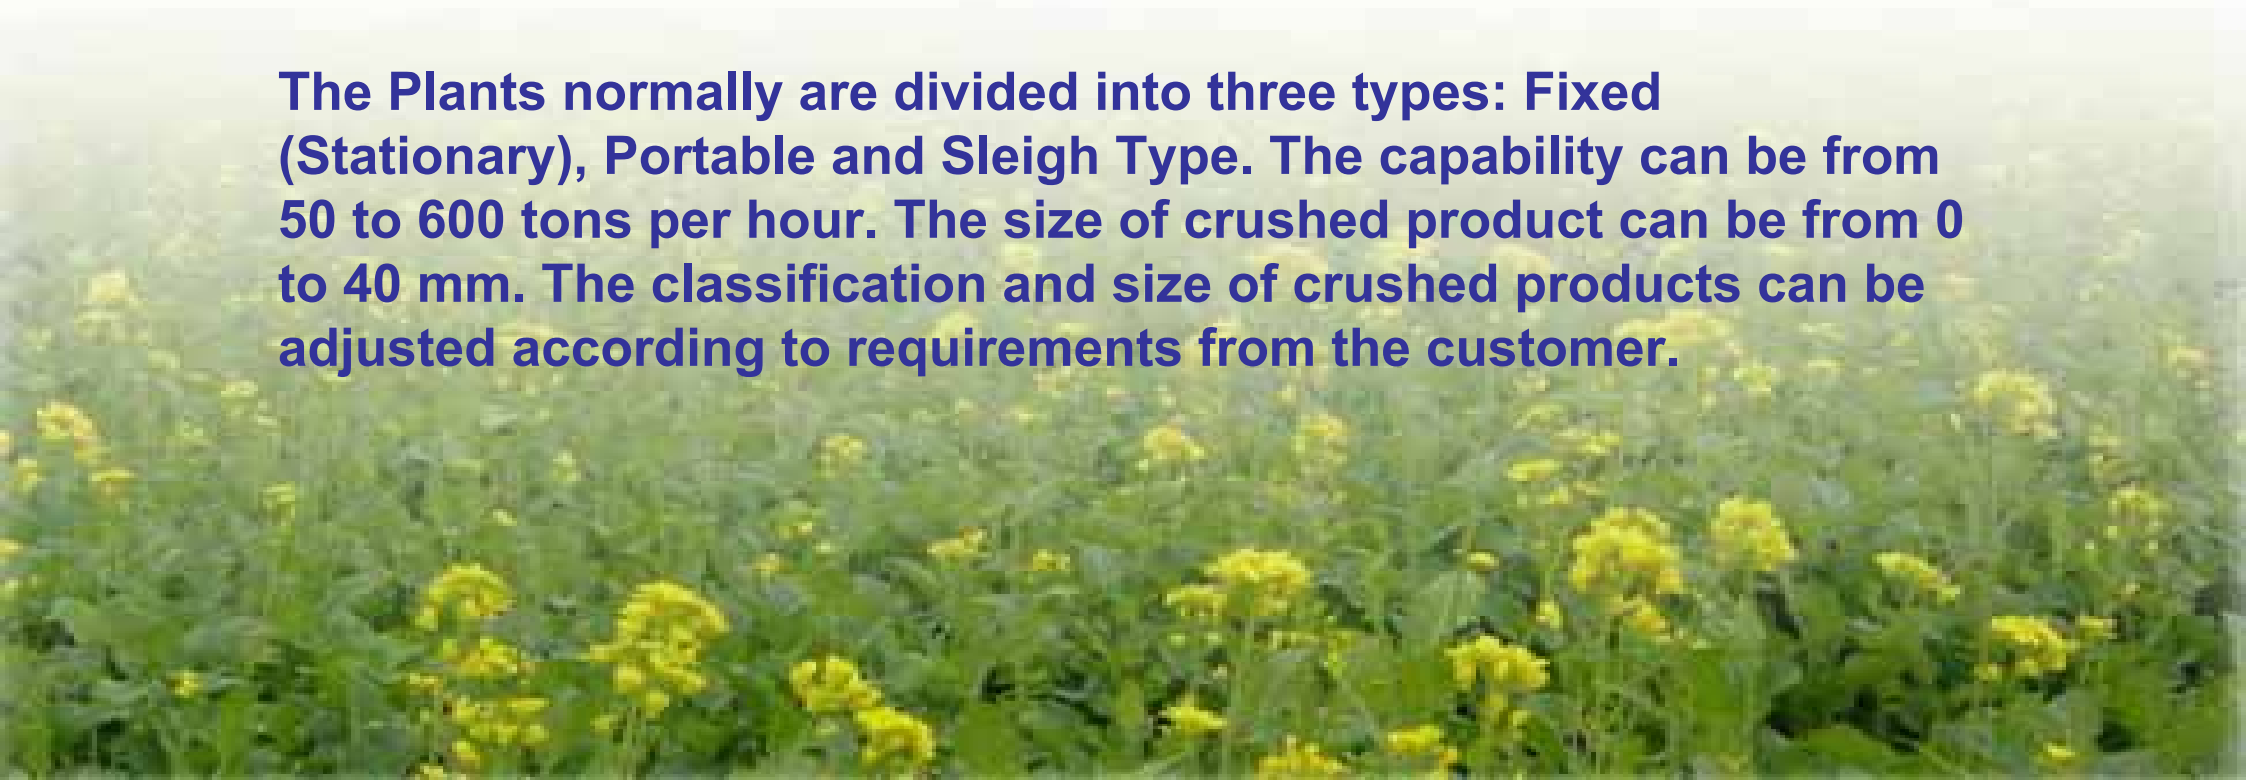

COMBINED CRUSHING & SCREENING PLANT

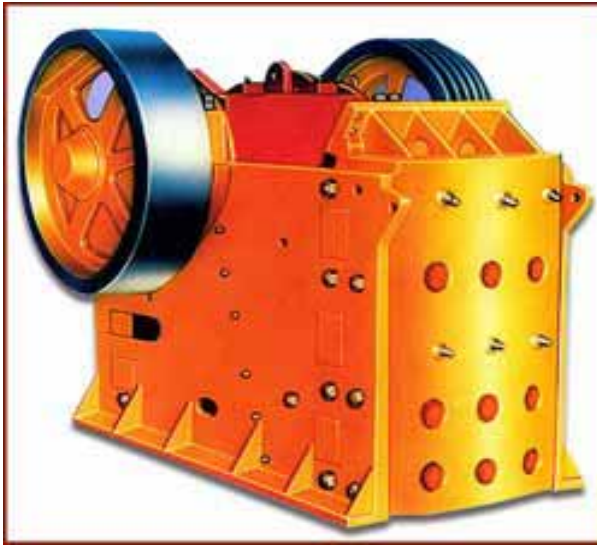

Preface

The combined crushing and screening plants consist of coarse jaw crusher, fine jaw crusher, cone crusher, vibrating screen, belt conveyers, electrical control system, dust collection equipment and other machinery and equipment according to the raw materials, requested process and the specification of the finished products.

The Plants normally are divided into three types: Fixed (Stationary), Portable and Sleigh Type. The capability can be from 50 to 600 tons per hour. The size of crushed product can be from 0 to 40 mm. The classification and size of crushed products can be adjusted according to requirements from the customer.

Crusher Series

Jaw crusher

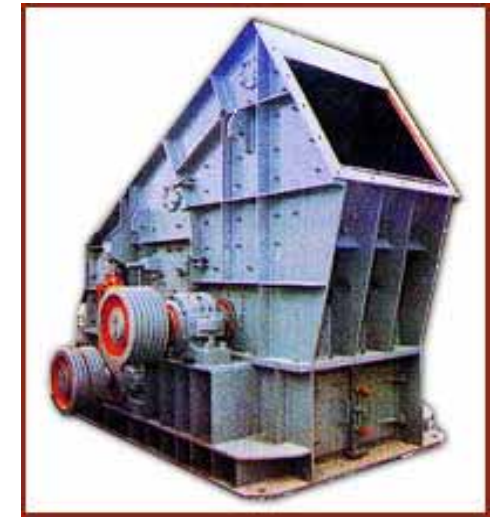

Impact crusher

Cone Crusher Series

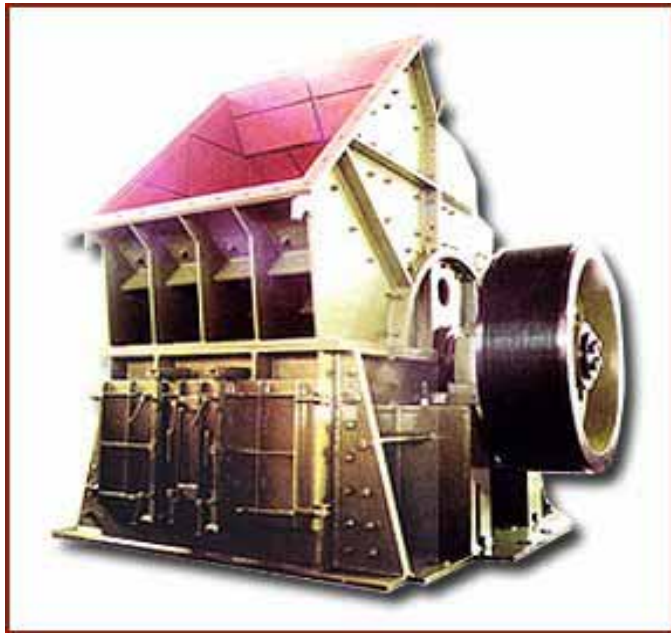

1350 Symons Cone Crusher Series

Double shaft impact crusher

Crusher Series

SINGLE-STAGE HAMMER CRUSHER

SINGLE-STAGE DOUBLE ROTOR HAMMER CRUSHER

IMPACT-HAMMER CRUSHER

Fine Grained Hammer Crusher

Vertical Spindle Hammer Crusher

Crusher Series

Ring Hammer Crusher

HAMMER CRUSHER SERIES

Double Rotor Impact Breaker

Double Toothed Roll Crusher

Crusher Series

AF Cone Crusher

Double Roll crusher

Heavy hammer crusher

Vertical shaft fine Impacter

Screening Equipment

Round Vibrating Screen

Straight line movement screen

Circular movement vibrating screen

Vibrating Feeder

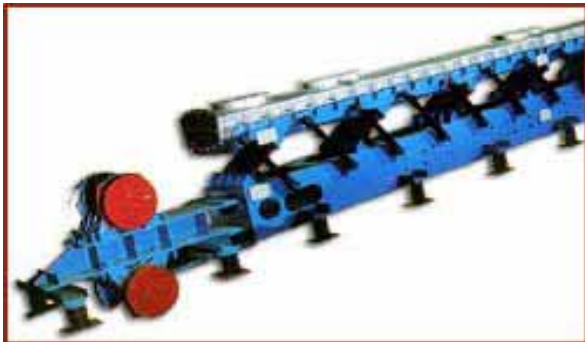

Feeding and Transportation Equipment

Apron Feeder

Bucket Conveyor

SZF Enclosed Vibrating Conveyers

GX Screw Conveyor

Belt conveyor systems, Stacker/Reclaimer & Dust collection equipment

BELT CONVEYER SERIES

Stacker and reclaimer

Dust collecting equipment

50-600t/h Integrated Crushing & Screening Plants

Stationary type

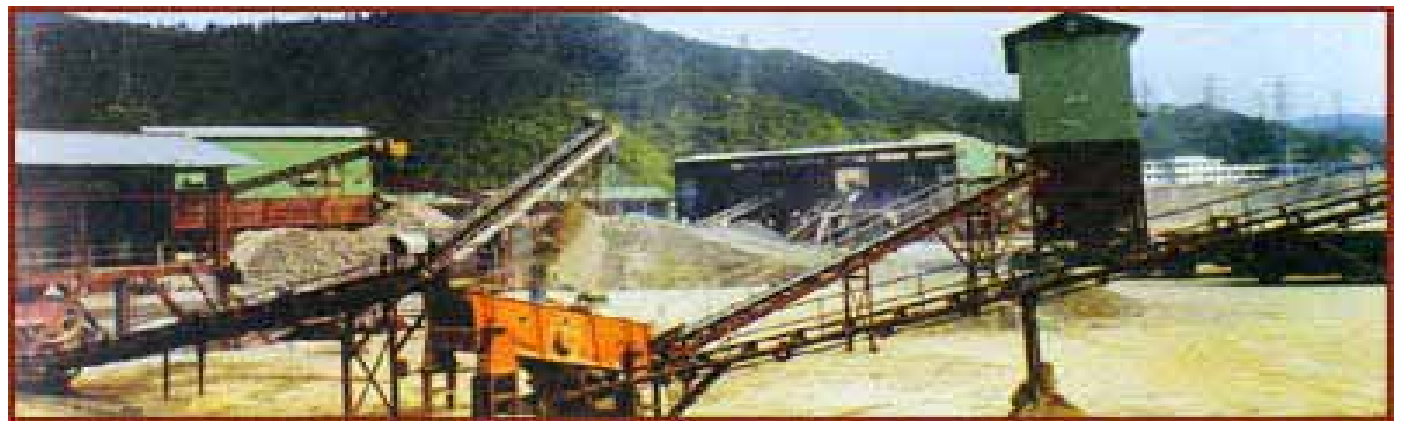

Semi-portable type

Portable type

Integrated Crushing & Screening Plants

EQUIPMENT FOR MANUFACTURED SAND

Equipment for manufactured sand making

PL Vertical Impacting Crusher

AF cone crusher

PFK Reversible Impact Crusher

PCKW Reversible no-grate hammer crusher

Equipment for manufactured sand making

Double Roll crusher

PLF Vertical shaft fine Impacter

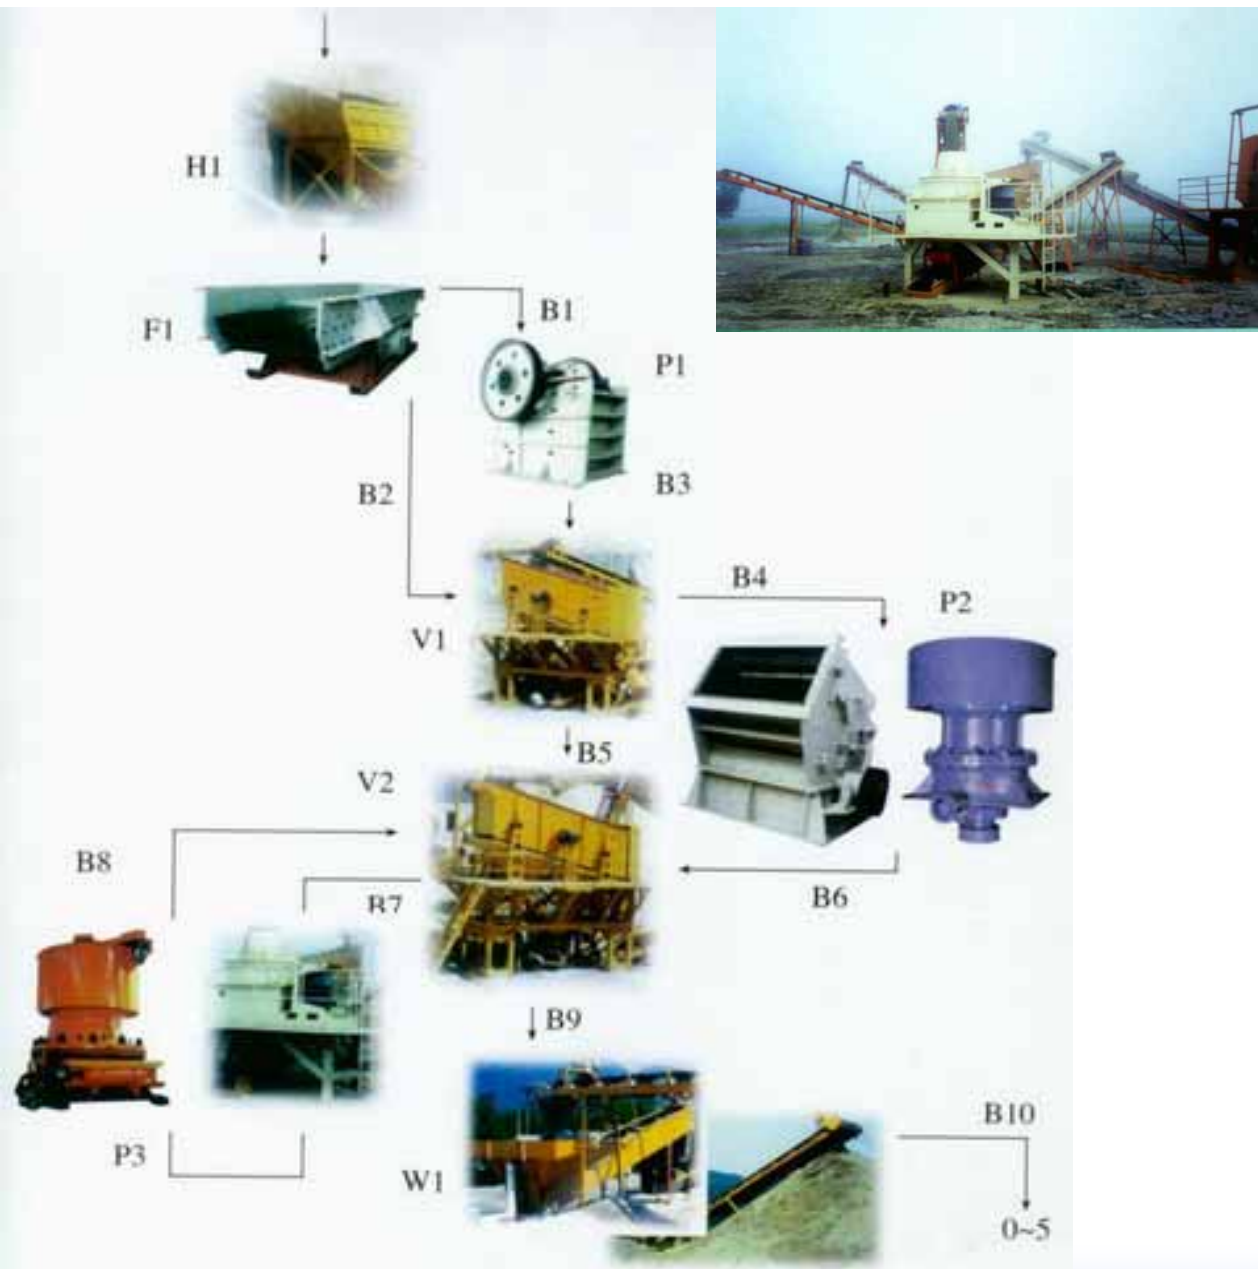

Vertical shaft sand maker

Sand washer

Manufactured Sand Making Process & Plants

Service

- **Advanced and reliable technology & engineering**
- **Procurement, manufacture, and delivery of the goods**
- **Project management**
- **Construction, installation, and commissioning**
- **Technical service**
- **Training program**
- **Service after completion of the project**
- **Financing assistance and export credit**
- **Other services and functions upon request**
